WORK EXPERIENCE

FILAM SOFTWARE TECHNOLOGY, INC.

Angeles City

Oct 2014 - Jan 2019

Web Developer

- Set up hosting for each website, uploaded sites to host account, and established go-live procedures.
- Created website layout/user interfaces by using standard HTML/CSS practices.
- Responsible for maintaining, expanding, and scaling our site.
- Cooperated with web designers to match visual design intent.
- Worked closely with the senior developer and chief marketing officer to implement bespoke web projects.

FILAM SOFTWARE TECHNOLOGY, INC.

Angeles City

Feb 2019 - Present

Software Engineer

- Programmed computer applications and tools using C# and .NET Core object-oriented languages to enable code abstraction, stability and reuse of programs.
- Applied regression testing after software updates for changes to system or function to reduce coding and unnecessary downtime.
- Collaborated with QA testers to conduct end-to-end unit testing and post-production testing.
- Collaborated with Project Manager and QA Manager's in meetings to discuss expected deadlines, new designs and enhancements for projects.
- Created customized software solutions for 6 clients.

EDUCATION

INTERGRATED COMPUTER SCHOOL FOUNDATION

Angeles City

2012

Associate of Science

- Commendation Award
